ABOUT ME

(Looking For a Remote Job/ Intern)

I am an entry level frontend web developer skilled in building responsive and interactive user interfaces using modern web technologies such as HTML, CSS, Bootstrap, Tailwind CSS, React.js, and Node.js.

I am capable of creating single-page applications and managing and storing data with MongoDB. With a passion for creating seamless user experiences, I thrive in collaborative environments where I can contribute to the full lifecycle of web development.

I am committed to providing top-notch, scalable, and performant solutions, from creating user-friendly interfaces to putting strong front-end logic into place and interfacing with back-end systems. Continuously expanding my skill set, I stay up-to-date with the latest industry trends and best practices, ensuring efficient and maintainable code. I am a team player with excellent communication skills, capable of translating technical requirements into intuitive and visually appealing web applications.
